
THREE PRIMARY ENVIRONMENTS

We've gone through and defined the tools and resources we provide to help you implement the Orange Strategy to be used in three primary environments: church (252 Groups), home (252 Home) and in-between (252 FX). You'll see these labels show up in your download matrix, as well as resources and products.

252 GROUPS

We call our resources to be used in the church environment, Groups. So, you'll begin to see those resources with the label 252 Groups. Resources include:

- Large Group scripts
- Large Group visuals
- Small Group scripts
- Monthly song
- Other resources to help you make Groups a success

252 FX

Orange is at its strongest when multiple families are connecting with each other and with church leaders weekly or monthly. That's what an FX is, a Family Experience where we put parents and kids in the same room. This unique, shared event opens the door for conversations at home. FX resources are either included with a 252 Basics license or sold separately, like:

- Weekly FX scripts
- Monthly FX scripts
- Seasonal FX event scripts
- Director's Notes
- Tech Sheets
- Video elements and resources to help you make your FX a success

252 HOME

252 Home includes tools to equip parents to reinforce the Bible stories and life apps their kids are learning at church, also at home. Examples of 252 Home resources include items that are included with a church's 252 Basics license or sold separately, like:

- GodTime Cards
- Parent Cue Cards
- Social Media Plans
- Studio252.tv
- Parent Cue app
- Parent Cue Blog
- Widgets
